MEETING STATUS

There are 2 'meeting status boards' available for your convenience, they are located at Parc Ferme 'in gate' located on the adjacent lamp post & above 'grid gate' entry to the back of the grid. Please refer to these boards regularly throughout the event particularly in changeable conditions.

If the Meeting Status is 'DRY' only slick tyres can be used.

If the Meeting Status is 'WET' only wet tyres can be used

If the meeting Status is 'OPEN' slick or wet tyres can be used

PRACTICE

Transponders must be fitted from practice session one and at all times throughout the event.

Your allocated Race numbers must be displayed on all 4 sides of the kart from session 1

RACE TYRES

Race tyres (scanned/Barcode recorded) are the only tyres permitted for use in Qualifying Practice, Heats and Finals.

GRID ASSEMBLY

For Timed Qualification each driver will be allocated a starting grid slot on the Dummy Grid. This will be decided by computer Ballot.

For Race the Grid Gate closes 2 minutes prior to the end of the previous track action. Not on the grid on time = no Race.

PRE-GRID

Please ensure you follow the instructions from the officials – also note:

If a driver is unable to start when the green flag/light is given to release the grid for the race, and the mechanic has to intervene (ie spark plug change) he/she will be authorised to do so only on the orders of the Race Director or Grid Marshal, and he/she will take the start from the back of the formation, following the start being given, irrespective of the number of Formation Laps. This would also apply if a driver leaves the grid but then returns to the pits on any formation lap – re-joining must be at the back of the grid. Any driver starting from the "Pre Grid" will be considered to be on the lead lap, assuming he/she is able to leave the "Pre Grid" before the leader crosses the Start/Finish line for the completion of the first racing lap. Should the driver fail to leave the "Pre Grid" to join the track within this time frame, he/she will only be allowed to attempt a restart within the completion of the second racing lap by the last – positioned Driver, after which no restart attempt will be allowed. Should the driver be able to join the track, he/she will be scored as being a lap down on the leader.

No working on the grid with tools, Tyre pressure checks only **air must only be released not added in any way**

PLEASE NOTE THE FOLLOWING:

If you are a novice, remember you need to be on novice plates. If you are no longer a novice, please ensure you let Race Control know.

Make sure you check online or check in Race Control if unsure where to find what Qualifying Practice Group you're in as you won't necessarily be in the same Group as Practice and Non- Qualifying Practice. We have previously had drivers miss their Qualifying Practice; this could be due to practicing in different groups throughout the day.

ROLLING LAP

In order to regain one's position, it is forbidden to use any course other than the track used during the race.

In the case of rolling starts, a Driver who is delayed will have the possibility of regaining his/her grid position only if this maneuver does not impede other Drivers and in all cases before having reached the yellow flag(s) & lights.

There will be yellow flags & lights at posts 8 & 9; no overtaking is permitted after post 8. Please keep a slow, steady, and constant speed and keep within the tram lines as you approach the start. Wait for the lights to go out then race on.

Please note overtaking at any time on a rolling lap after Post 8 will result in a report being sent to the Stewards regarding 'overtaking under the yellow flag'

A YELLOW LINE/CONES 25 METRES BEFORE THE START LINE INDICATES THE POINT OF ACCELERATION FOR THE START.
EXCESSIVE APPROACH SPEED WILL BE MONITORED AND MAY BE PENALISED.

FULL CIRCUIT

The 'FULL' circuit must be used at all times – FAILURE TO COMPLY MAY RESULT IN A MINIMUM MANDATORY 1 LAP PENALTY – THIS APPLIES IN RACE ALSO.
